Create a WebQuest for your unit

Use Inspiration to create an outline of your unit

- 1. In the center, choose a graphic to represent your unit; use a title as well.
- 2. Create an outline of major concepts for your unit.
- 3. Use multiple levels of outlining (at least two).
- 4. Choose simple and easy to follow phrases.

Evaluate 4 web sites that enhance reading for your unit

- 1. Using a bulleted list, identify the titles and URLs of the web sites; bold the titles.
- 2. Write a paragraph summarizing the material found on each web site.
- 3. For each site, provide a brief explanation of how it will enhance your unit.
- 4. Identify the problems the sites might pose for struggling readers or other students with exceptionalities.

Identify 5 strategies to help students read text

- 1. Identify 5 reading strategies you could use for this unit number and bold the name of each.
- 2. Write a brief overview of each strategy.
- 3. Write a specific description of how you will use each strategy for your unit.

Create an interactive activity for the vocabulary in your unit; choose PowerPoint, FrontPage, or DreamWeaver

- 1. Identify a minimum of 10 key vocabulary words for your unit.
- 2. Choose a method of technology for reviewing the unit's vocabulary and create the activity using the provided rubric.
- 3. Submit the interactive activity to your tutor and have them complete the provided evaluation form.

Outline the process your students will follow to complete the WebQuest

- 1. Provide details for evaluation of the WebQuest.
- 2. Carefully follow the rubric provided by your professor.
- 3. Include an introduction to the topic.
