Goals for Teaching

**GOAL 1:** learn and practice the best way to keep an energized classroom when I am student teaching. I want students to enjoy my classroom, but at the same time learning as much as possible along the way.

**GOAL 2:** keep a well-disciplined room in which students feel comfortable around me and around other students, basically having a classroom that stresses respect, not only for the teacher but for their classmates as well.

**GOAL 3:** have every student succeed, not for the basis of everyone getting an A, but for students to improve from the beginning to the end of the year in their ability to create art.

**GOAL 4:** Keep a well-managed classroom for my students so they may achieve their best learning experience. I will do this by being prepared for every class. Also, I will stress clean up at the end of the day to my students. This will help keep a clean environment for my students to learn.
