

Dear Caregiver:

As I mentioned in my last letter, it has been a pleasure working with your son or daughter. I really feel like I am learning a lot from them and I hope that they are also learning lessons from me.

Between now and the end of my time at Imagine on Broadway I am hoping to video tape some lessons. These tapes will be used to help me learn what I can fix in my lessons. This is also a tool that Manchester College uses to grade my Student Teaching experience. The only people that will have access to this video tape is myself, Mr. Brinkman, my college supervisor, and my college professors.

Due to the current photographing and video taping rules, it is important to have a caregiver's permission for this process. If you would prefer that your child would not be video taped, please note that on the below form.

Please complete the below form by March 1st, so that I can use your son or daughter in the video tape.

Please let me know if you have any questions or concerns.

Sincerely,
Miss Carol Fike
Student Teacher
2nd Grade
Imagine on Broadway

Child's Name _____

I allow my student to be videotaped and photographed for Educational purposes.

I would prefer that my student not be video taped.
