## All about Fossils

**Directions:** Use the website to find the answers to the following questions. The answers should be in your own words!! Make sure to use capital letters at the beginning of sentences and proper punctuation.

1. What are fossils?

2. Fill in the blank.

Fossils are made by replacing original \_\_\_\_\_ material with \_\_\_\_\_s.

3. There are four ways that fossils form. Name two of these forms and the definition.

4. How old are some fossils? (give a range)

5. Name some places you can find fossils. Is it possible to find them in your own back yard?
