

Ecosystem Grading Rubric

Group Members: _____

**** The following tasks will be graded by the teacher. If there is a --- in a box, that means there is nothing to hand in, but the teacher will give you a grade for how well you worked together in your group. The points possible for each task are listed below.**

TASK	COMPLETED	HANDED IN
1. Assign roles in group		-----
2. Facts Page over ecosystems (one from each person in the group)		
3. Poster comparing ecosystems		
4. Research Page over ecosystem		
5. List of materials		
6. Create model of ecosystem		
7. 2 Paragraphs over ecosystem (one paper from each person in the group)		
8. Presentation		-----

Task #1: Group Work _____/5

- 5 points = The group worked together well, with little or no intervention from the teacher
- 3 points = The group needed teacher intervention to work out problems, or solve differences
- 1 points = The group needed much teacher intervention to help sort out problems

Task #2: Facts Page _____/5

- 5 points = There are five facts listed on the paper
- 3 points = There are three or four facts listed on the paper
- 1 points = There are two or less facts listed on the paper

Task #3: Poster comparing ecosystems _____/10

- 10 points = There are at least three facts that state how the ecosystems are similar and three that show they are different
- 8 points = There are two facts that state how the ecosystems are similar and three that show they are different
- 5 points = There are one or less facts that show how the ecosystems are similar and one or less that show they are different

Task #4: Research page _____/10

- 10 points = All of the questions are answered and the information is correct
- 8 points = Most of the questions are answered and the information is mostly correct
- 5 points = Only some of the questions are answered and the information is not correct

Task #5: List of materials _____/5

5 points = The group handed in a list of materials

0 points = The group did not hand in a list of materials

Task #6: Model of ecosystem _____/20

20 points = The model is creative and accurately model the ecosystem

15 points = The model is creative but does not accurately model the ecosystem

10 points = The model is not very creative and does not accurately model the ecosystem

Task #7: Paragraphs about ecosystem _____/15

15 points = There are two paragraphs with correct information and have no spelling errors

8 points = There are two paragraphs but have several spelling errors

5 points = There is only one paragraph and it has many spelling errors

Task #8: Group presentation _____/15

15 points = The presentation is interesting, covers all the important information, and shows a rehearsed project.

10 points = The presentation covers most of the important information, and shows some rehearsal.

5 points = The presentation appears hurriedly thrown together, and/or is not taken seriously.

Group effort _____/15

15 points = The group worked well together and each person carried out their role

10 points = The group worked somewhat together but not everyone carried out their role

5 points = The group did not work well together and no one carried out their role

TOTAL POINTS: _____/100
